

Urgentem Company

Fact Sheet

CHRONOLOGY OVERVIEW

- Founded in 2016
- Appoints a new CEO, Girish Narula, and senior management team, in December 2019
- Rebrands as 'Urgentem' with a new name, challenger identity, website.
- Launches Climate Risk Platform, Element6™
- Onboards new global clients, ranging from Cbus Super in Australia to the ECB in Europe

DATA AND ANALYTICS OVERVIEW

- Urgentem dataset provides a comprehensive time series of the Greenhouse Gas Protocol defined Scope 1, 2 and 3 emissions of the largest 4,500+ global companies that are directly analysed by us along with modelled data available for 30,000+ securities.
- Data includes Scope 1 emissions, Scope 2 for both market and location-based emissions and each of the 15 disclosure categories of Scope 3 emissions, covering all the major investable indices.
- Dataset incorporates both disclosed and inferred emissions intensity data, applying an Intensity Inference Methodology to non-disclosing companies and to companies with insufficient publicly disclosed data. The dataset clearly identifies figures that are directly reported and inferred.

- Partners include leading practitioners and experts from the financial markets, climate scientists, research bodies, academics and climate-risk focused NGOs.
- Data and analytics are used by clients to create investable financial products or benchmarks that are specifically designed to reallocate capital towards the most carbon, resource-efficient and sustainable companies.

RANKINGS OVERVIEW

- Urgentem's Company Emission Rankings are published once a year to generate awareness and advocate for better disclosure of emissions data.

CLIMATE-RISK PLATFORM OVERVIEW

- Climate Risk platform Element6™ offers a holistic view of climate risk at the company, sector and portfolio level, including scenario analysis, sectoral emissions attribution and forward-looking analysis.
- All platform's modules are based on work with clients. New features are added on a rolling basis in response to client feedback.

GUIDING VALUES AND PRINCIPLES

- Our guiding design values are threefold: transparency, collaboration and science alignment, which complement our competencies in finance, technology and climate science

COMPANY CULTURE OVERVIEW

- Urgentem is a DDFO (Deliberately Developmental Financial Organisation), which gives equal strategic priority to both technical and human challenges.
- As an organisation, we actively seek to stay open to the uncertainty, volatility, ambiguity and complexity of the unfolding climate emergency by cultivating

compassion, empathy and emotional intelligence, in a spirit of hope, courage, invention and play.
